The Cities Leadership Circle

A network of cities growing their capacity, influence and investment in using technology and data to accelerate social, environmental and economic value for our communities.

Our Ecosystem

Cities are at the heart of our work

“We know from experience that urban flooding disparately affects our community. It’s our responsibility to use that knowledge and the best available data to address flood resiliency, especially in our most vulnerable neighborhoods. Winning the Smart Cities Council Readiness Challenge has enabled Nashville to bring together its many stakeholders to work at accelerating the launch of targeted solutions to mitigate the impact of urban flooding.”

Mayor John Cooper
Nashville, TN

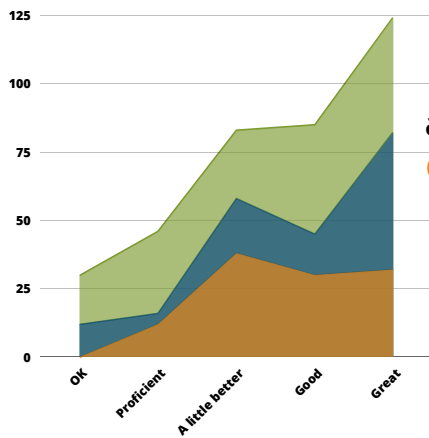

YOU'RE INVITED TO JOIN US

You will be partnering with the Smart Cities Council, one of the world's leading voices on the **FUTURE OF OUR CITIES**, to help transform our communities.

Exclusively for local government • Facilitates deep knowledge sharing • Creates project collaboration opportunities • Provides platforms to showcase your work • Hosts networking across sectors, and across the world • Offers access to tools, resources and support

Be great! - Inquire about certifying your City for its smart city capabilities - delivering livability, workability and sustainability

Towns	Counties	Cities	Departments
Populations up to 100,000	Of any size	Population >100,000	Focus on specific projects or programs
\$5000	\$10,000	\$10,000	\$5,000

Smart Cities Academy

Team members can earn the globally recognized Smart Cities Academy Practitioner Certificate. Show cities you understand their needs.

Use your training budget to increase the capacity of your team
