AIR POLLUTION, the world’s largest single environmental health risk

- It causes deaths (7M/year) and health impacts
- It reveals inequities
- It makes Environmental Justice high priority
Communities CAN improve economics and well-being of the people BY providing cleaner air
WHY DOES IT IMPROVE ECONOMICS?

1. It lowers healthcare costs
2. It improves reputation of your territory
3. It attracts millennials
NEW GENERATION AIR QUALITY MONITORING DEVICES

- Professional
- Reliable
- Easy-to-use
TO START AN AIR QUALITY PROJECT MONITORING, YOU HAVE TO PLAN:

• Pollutants
• Connectivity
• Data access
• Installation
• Dedicated team
EPA Opens $20 Million Grant Competition for Community Air Pollution Monitoring

Air monitoring projects can help foster transparency and accountability to reduce pollution in underserved communities

December 13, 2021

Contact Information
EPA Press Office (press@epa.gov)

WASHINGTON - Today, the U.S. Environmental Protection Agency (EPA) announced the availability of $20 million in competitive grants through the American Rescue Plan (ARP) to enhance ambient air quality monitoring in communities across the United States, especially in underserved and overburdened communities that often lack access to adequate air quality information. EPA will award funds to support community and local efforts to monitor air quality and to promote air quality monitoring partnerships between communities and Tribal, state, and local governments. Community-based nonprofit organizations, Tribes, states, and local governments may apply for the grants.

CONSULT AIR QUALITY DATA & TAKE ACTIONS THANKS TO US EPA GRANT
