

CYBER PROTECTION PURPOSE-BUILT FOR MUNICIPALITIES

Cyberboxx AssistSM is purpose built to provide the essential services to reduce your cyber risk exposure and help you recover should your firm be victim to a cyber incident.

Our services are more than an incident response retainer, they include:

- A Virtual Chief Information Security Officer (vCISO) to augment your technology leadership team, by providing advice and solutions to boost your cyber security
- 24/7 Cyber "Emergency Assistance" with real-time access to cyber experts
- 3 hours of emergency response services included. Additional time based on plan
- Access to experts to strengthen your cyber resilience through tailored recommendations and delivery of cyber services
- BOXX's accredited Cyber Awareness Training curriculum with customisable Phishing tests to help you stay ahead of cyber risks
- Alerts when someone impersonates the municipality online, or if your confidential data is mentioned on the Dark Web
- Assistance in meeting regulatory and compliance requirements and audits around cybersecurity
- Preferred rates with our partners for the tools and technologies to protect your municipality
- Support from our underwriting team to arrange access to cyber insurance when ready

Focus on running your Municipality. Let us protect it. This is where **Cyberboxx AssistSM** steps in.

OUTSMARTING CYBER RISK TOGETHER.

BOXX
INSURANCE

A specialist
cyber insurance
and protection company

Three Plans to meet your specific needs, custom built to maximize prevention of protection from and response to cyber threats.

	BASIC	STANDARD	PREMIUM
PREDICT			
See what Hackers See: We look at what cyber criminals target to spot areas of weakness by scanning your domain and public facings IPs every 3 - 7 days.		✓	✓
"Hacker Chatter" Alerts: We look for your company or the technology you use, to see if it is being mentioned on the Dark Web to help you act now.			✓
External Monitoring Through Your Domain: We regularly update you on our scan results of your security profile as seen by cyber criminals who scan your domain and related services.			✓
NIST Security Assessment: Our vCISO team will assess your security against the NIST framework including security posture improvement recommendations.	Custom Optional Service		
Internal Network Compromise and Vulnerability Assessment: Our team will conduct internal environment scan for threats and provide a compromise assessment report.	Custom Optional Service		
PREVENT			
Dark Web Monitoring: We regularly scan the dark web for mentions of your company or industry to alert you of pending or ongoing attacks against you.			✓
Preferred Rates for Services and Solutions: Access to our preferred pricing for security solutions that help you avoid breaches in the first place. (EDR, MFA, Cloud Security, infrastructure management, etc.)	✓	✓	✓
vCISO Advisory Service: Our vCISO will be available to discuss any concerns or provide guidance and advice on any technical / security items.	✓	✓	✓
Basic Cyber Awareness Training: Training tools to help your users be aware of common security practices and threats.	✓	✓	✓
BOXX Academy Advanced Cyber Awareness Training and Testing: Make your users your first line of defence through our leading training and phishing simulation curriculum. Bundled with dark web credential scanning. Service is priced per person per year but adjustable monthly.	\$33 per person	\$30 per person	\$27 per person
vCISO Review of Your Scan and Hacker Chatter: Our vCISO will help interpret the results of your scan and guide you on how to improve your security.		✓	✓
RESPOND			
Initial Breach Response Included: Immediate access to cyber security experts to assess and immediately start responding to an attack. For 3 hours per year.	✓	✓	✓
Preferred Breach Response Team: Immediate connection to our bespoke breach services, including legal, public relations, ransomware negotiators, digital forensics, and brand reputation experts.	✓	✓	✓
Compliance Assistance: Access to Policy and Security Frameworks. Leverage our library of templates to fill any gaps and improve on what you already have.		✓	✓
RECOVER			
One-Time Incident Response Credit (amount based on plan): Get a one-time credit if you are breached to help offset the initial incident response costs (once per contract year – does not carry over).		✓	✓
Access to an extended team of experts at preferential pricing: Engage with our extended team of experts including legal, public relations, ransomware negotiators, digital forensics, and brand reputation experts.	✓	✓	✓
Final report wrap-up: vCISO Recommendations for further improvement of security posture.		✓	✓

* Subject to terms and conditions of contract
