In 2020, what did you order more of online:

Rank your active transportation habits in 2020:

Do you think there is an increased 'Fear of Crowded Public Space'?

Do you think there will be more work from home?

A bit

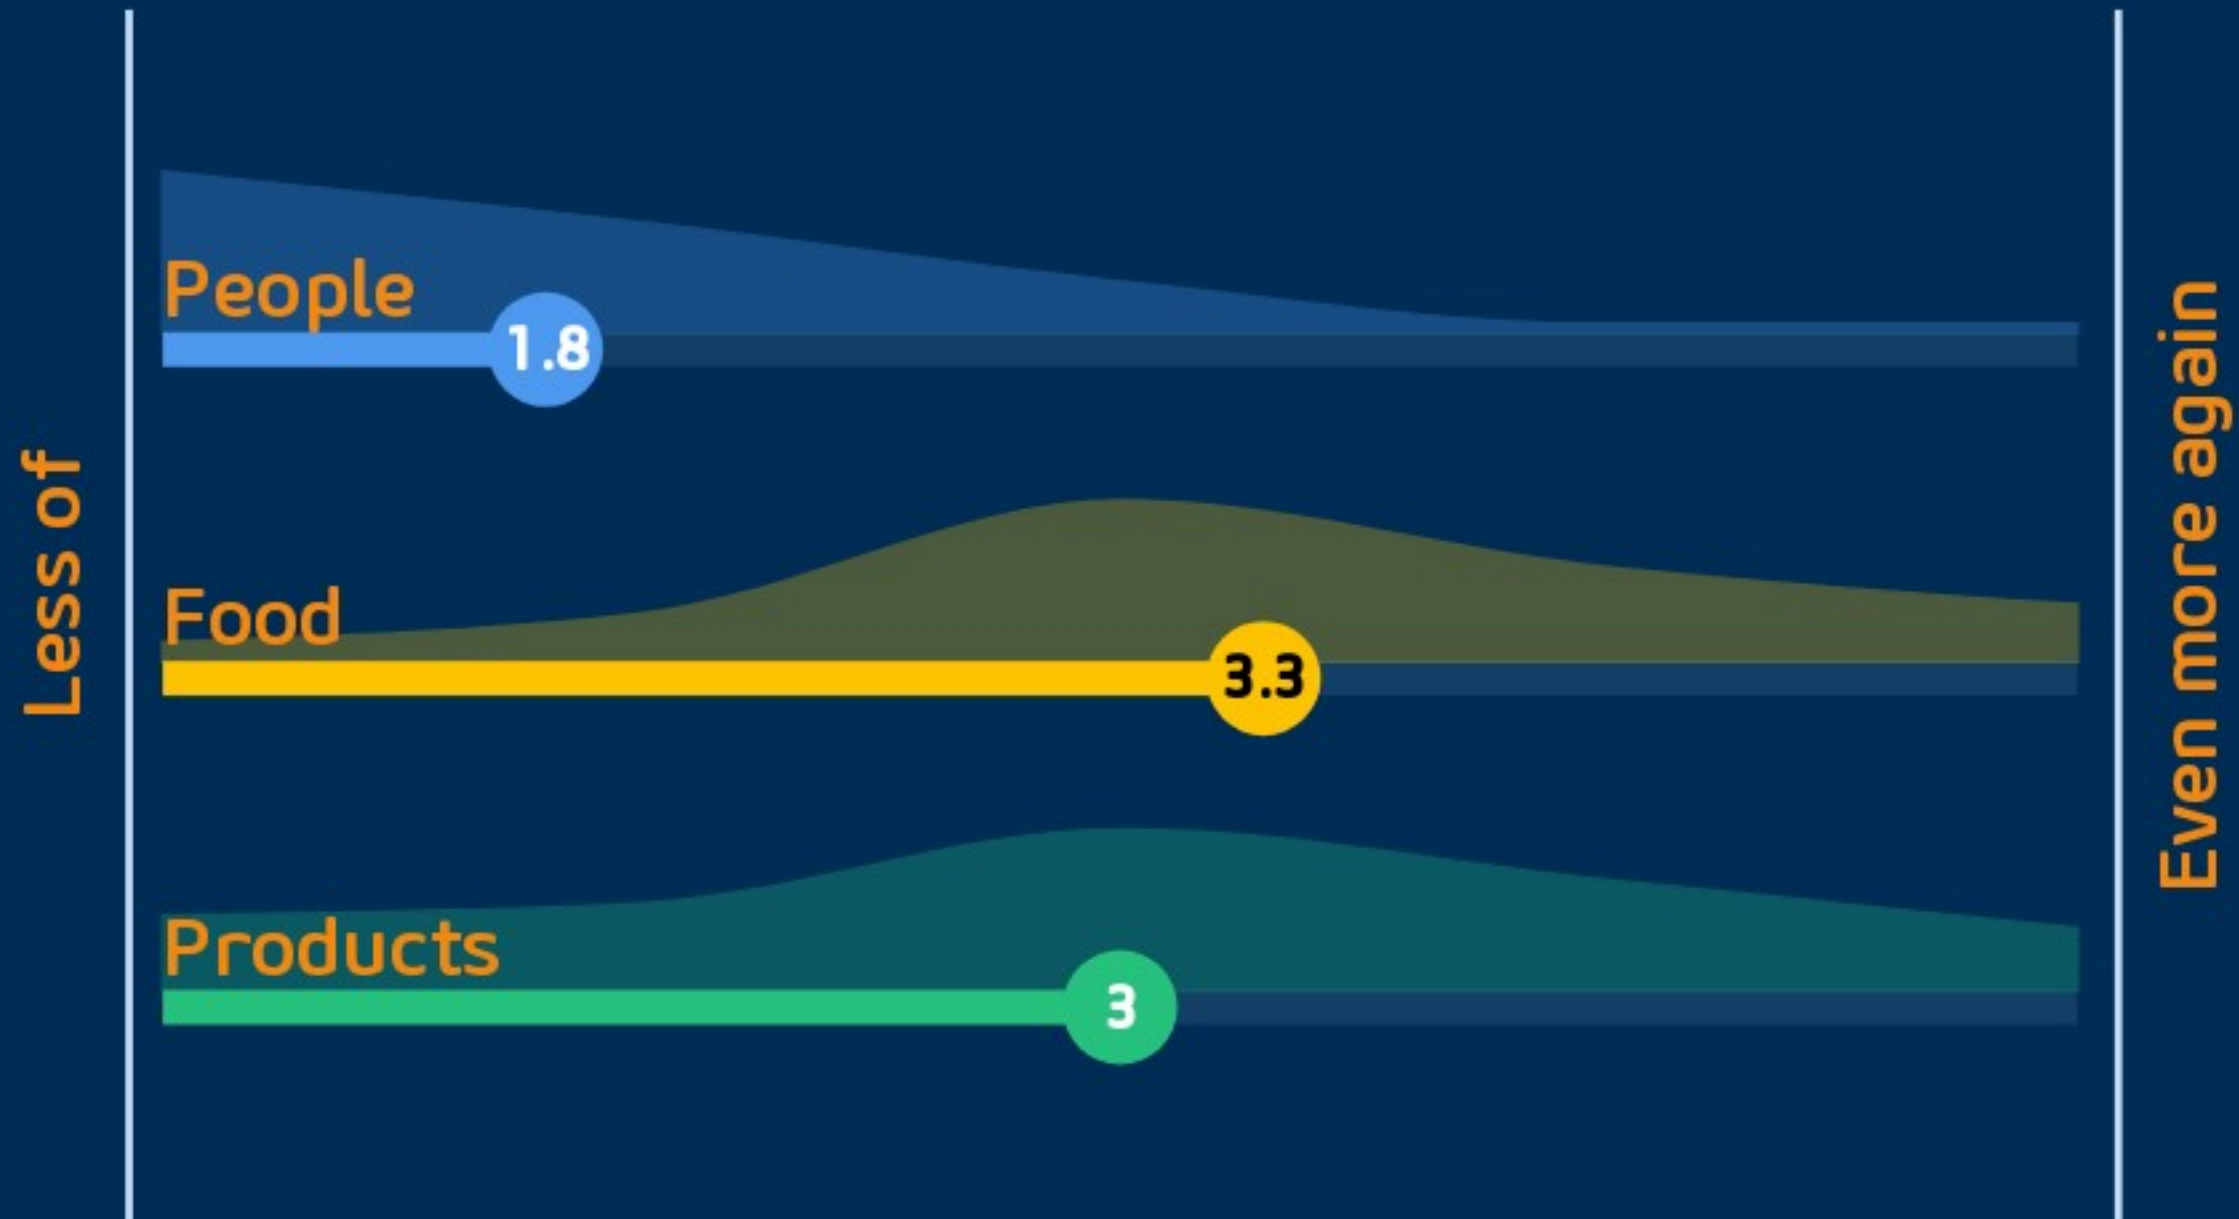

More than we think

Substantial shift to WFH

What happens post COVID? Uber moves:

What will have the greatest impact on urbanism in the coming years...

What are we underestimating / underimagining?

Everything

The psychological impact of this upon long term society and a presumption things will go back to normal

The seriousness of COVID -19

Increase in micromobility through growth of e-bikes

mutual aid

Discomfort with change / reverting to old ways

The Instability in City Income and the Ability to provision long term response

Mental health stress of returning to office/work place

People have short term memory loss. We haven't suffered enough to form new habits, and will slide back into our previous norms.

What are we underestimating / underimagining?

Fear of being around other people

Social impacts

Hairstyles

Impact of reduced incomes for a large portion of the community

The chance to pivot to new ways of doing movement

Shift to a local focus.

Significance of strangers to well being

Social impact

Mental health impact of lack of social contact (in the workplace and outside)

What are we underestimating / underimagining?

Future always hard to predict, however we can do our best planning based on historical evidence.

Dispersal of economic activity to suburbs and away from cbd

Rebound of air travel (in context of further global economic shift to Asia/Africa)

Impact of decentralisation on long term infrastructure planning

Duration of Movement restrictions

The different impact on behaviour in Victoria, as opposed to other states

The opportunity for change right now.. People are ready.

Global travel trends

Irresponsible bike riders hitting pedestrians on shared pathways

What are we underestimating / underimagining?

Long term mental health. / impact on young
people Long term Economic impact
